

Simulation in Chemical and Process Engineering

Presented by Lucas Garfield on behalf of Bryan Research and Engineering, s.r.o.
in cooperation with

Slovak University of Technology in Bratislava Chemical Engineering Department

February 22, 2018 from 13:00 to 13:45

Are you interested in how Chemical Engineers in industry use process simulators to help them design, operate, and optimize their units and plants?

Our company, Bryan Research and Engineering, develops the popular process simulator ProMax®. Last year, we opened a new office in Brno to better support our EU customers.

Please join us on February 22, 2018 from 13:00 to 13:45 to discuss how engineers in the oil and gas industry use process simulation to engineer amazing things!

I hope to see you there!
-Lucas Garfield

We are growing, and would be happy to accept your CV and schedule an interview with you in Brno!
